

STATEMENT OF COMPLIANCE

in accordance with the Product Security and Telecommunications Infrastructure Act 2022 and the Product Security and Telecommunications Infrastructure (Security Requirements for Relevant Connectable Products) Regulations 2023

Document No.: PSTI-OTG-V1.0

1. Manufacturer

Company name	ISYSTEMS AUTOMATION S.R.L.
Trading as	HomeMaster®
Registered office (sedul social)	Str. Domnişori, Nr. 81, Bl. 62, Scara A, Etaj 3, Ap. 12, 100284 Ploieşti, Jud. Prahova, Romania
Office / Contact address	Diligenţei 18, Ploieşti, Romania
CUI / VAT	RO 21537032
EUID / Trade Registry	ROONRC.J2007000919293
EU Trade Mark	HOMEMASTER — EUTM No. 019082911 (EUIPO, registered 15/01/2025)
Telephone	+40 747 757 798
Website	https://www.home-master.eu

2. Object of the Statement

Product name	HomeMaster OpenTherm Gateway
Part number	OTG-001
Hardware version	V1.0
Description	ESP32-based DIN-rail OpenTherm master for OpenTherm-compatible boilers, providing full boiler telemetry, modulating setpoint control with weather compensation, 2 × 1-Wire buses, 1 dry-contact relay output and USB-C configuration.
Network connectivity	Wi-Fi 2.4 GHz

3. Statement of Responsibility

This Statement of Compliance is issued under the sole responsibility of the manufacturer named above. The product described above complies with the security requirements set out in Schedule 1 of the Product Security and Telecommunications Infrastructure (Security Requirements for Relevant Connectable Products) Regulations 2023.

4. Security Requirements

Requirement	Compliance
1. Passwords No universal default password	The product is not supplied with a universal default password. Network credentials are set by the user at commissioning. Device authentication uses a per-device API encryption key and OTA password generated during ESPHome adoption, unique to each unit.

2. Information on how to report security issues	A public vulnerability disclosure policy is published at github.com/isystemsautomation/homemaster-dev/blob/main/SECURITY.md and mirrored at home-master.eu/security . Reports are received at support@home-master.eu . Acknowledgement within 3 working days; initial assessment and severity within 10 working days; status updates every 20 working days until resolution.
3. Information on minimum security update periods	Security updates are provided for this product for 10 years from the date the last unit of this hardware version is placed on the market. This period is published in the vulnerability disclosure policy referenced above.

5. Additional Information

Documentation supporting this statement is held by ISYSTEMS AUTOMATION S.R.L. at the address listed in Section 1 and is available to the relevant authorities on request.

Cybersecurity conformity for the EU market is declared separately under Article 3(3)(d) of Directive 2014/53/EU, applying EN 18031-1:2024; the risk assessment (CYB-001) and the verification records (CYB-002) are held in the technical file.

This statement applies to Great Britain. Products supplied in Northern Ireland are excepted from the PSTI Regulations 2023.
